✖ Edgenuity Courseware runs on a web-based platform. Use of school Wi-Fi with an Edgenuity Media Appliance is recommended.

✖ Without access to an Edgenuity Media Appliance, 2 Mbps per concurrent user is recommended when using mobile devices.

Compatibility

✖ Smart phones and smart watch devices are not supported by Edgenuity.

✖ A small number of courses require third-party software installation and are not supported on Chromebooks. A list of non-compatible courses is included for your reference within this document.

✖ Districts can use the IP Registry feature to regulate which IP addresses are approved to take assessments.

PLEASE NOTE:
Example devices listed above have been tested to be functional when using Edgenuity. Other devices not listed may be used providing they meet the minimum requirements.

Windows based tablets and the Windows RT operating system is fully supported by Edgenuity when using Edgenuity 3000+ series courses. Please reference the Minimum System Requirements document for additional information.

Android™ tablet and iPad® minimum system requirements and course compatibility information is located within the Android Tablet and iPad Usage Overview document.
